

How to Clean & Disinfect RESTROOM STALL PARTITIONS

-  Select an appropriate WAXIE disinfectant that works on hard, non-porous surfaces.
-  Put on your safety glasses and gloves.
-  Remove any gross soils from surfaces before disinfectant application.
-  Consult product label for dilution instructions.
-  Apply product to the surface of the stall partition, including edges and hard to reach areas with a brush, cloth, sponge or coarse sprayer until the surface is thoroughly wet.

For spray applications, hold 6-8 inches from the surface.
-  Allow surface to remain wet. See product label instructions for appropriate dwell time.
-  Wipe all surfaces dry with a clean cloth or allow to air dry.

Recommended Product:
**HP Disinfectant
Cleaner**

Read all product instructions carefully for proper use and maximum effectiveness.
