

# How to Clean & Disinfect RESTROOM STALL PARTITIONS

1

Select an appropriate WAXIE disinfectant that works on hard, non-porous surfaces.

2

Put on your safety glasses and gloves.

3

Remove any gross soils from surfaces before disinfectant application.

4

Consult product label for dilution instructions.

5

Apply product to the surface of the stall partition, including edges and hard to reach areas with a brush, cloth, sponge or coarse sprayer until the surface is thoroughly wet.

For spray applications, hold 6-8 inches from the surface.

6

Allow surface to remain wet. See product label instructions for appropriate dwell time.

7

Wipe all surfaces dry with a clean cloth or allow to air dry.

Recommended Product:

## HP Disinfectant Cleaner

Read all product instructions carefully for proper use and maximum effectiveness.
